HEAD AND NECK ENDOCRINE SERVICES

The UAB Department of Otolaryngology continues to be ranked by *U.S. News & World Report* as one of the top programs of its kind in the country. Our board-certified, fellowship-trained head and neck surgeons perform more than 500 head and neck endocrine cases each year.

HEAD AND NECK ENDOCRINE CONDITIONS TREATED:

- Benign thyroid nodules
- Malignant thyroid tumors
- Surgical management of Grave’s disease
- Surgical management of primary, secondary, and tertiary hyperparathyroidism
- Revision thyroid and parathyroid surgery

FOR REFERRING PHYSICIANS

Referring physicians and other providers may call (205) 801-7801 to begin the consultation process.

The Otolaryngology Endocrine Clinic is located at The Kirklin Clinic of UAB Hospital, 2000 6th Avenue South, Birmingham, AL 35294.
Dr. Buczek completed her medical degree at Duke University School of Medicine. After completing her residency and fellowship at UAB in head and neck oncology and reconstructive surgery in 2017, she joined the Department of Otolaryngology as an assistant professor. She is a member of the American Head and Neck Society, American Thyroid Association, American College of Surgeons, American Academy of Otolaryngology, Alabama Society of Otolaryngology, American Medical Association, and the Quality Improvement Initiative for the UAB Department of Otolaryngology.

Dr. Buczek focuses on head and neck oncology, endocrine surgery (thyroid, parathyroid), and transoral robotic surgery.

Dr. Peters joined the Department of Otolaryngology in 1984. He earned his medical degree from LSU Medical Center, followed by residency training at UAB. After completing a fellowship in head and neck oncologic and reconstructive surgery at Johns Hopkins Hospital, Dr. Peters returned to UAB, where he is a professor of otolaryngology and holds the Julius N. Hicks Endowed Chair.

Dr. Peters has held many leadership positions within the department and currently serves as associate chief medical officer for UAB Medicine. He has focused his career on head and neck endocrine surgery (thyroid, parathyroid), with an emphasis on minimally invasive techniques.
