

# FUNDAMENTALS OF ICU REHAB

February 29- March 1, 2020

UAB Hospital • West Pavilion Conference Center Room E  
1802 6th Avenue South • Birmingham, AL 35233

Therapists working with patients in the ICU face a complex challenge. These patients have limited mobility due to life support, monitoring equipment, multiple medical problems and muscle weakness. Early mobility can lead to an increase in the patient's quality of life and higher functional capability. The content of this course will guide clinicians through the process of managing adult ICU patients. Case reports will be presented to demonstrate how the early mobility and walking program in the ICU can positively impact the recovery of selected patients.

**COURSE FEE:** \$450.00

**SUGGESTED AUDIENCE:** PTs, OTs, PTAs, COTAs, and other ICU health professionals ( RNs, SLPs, MDs, RTs).

**CEU INFORMATION:** This course offers 14.0 contact hours/  
1.4 CEUs.
