

CONSULT

Book a consult at UAB's Cosmetic Dermatology and Laser Clinic and we can create a personalized plan for your improvement goals. The consult fee is waived if you have, or book, a procedure that same day.

- Consult \$100

NEUROMODULATORS

Botox, Dysport, and Xeomin are neuromodulators that temporarily relax specific muscles by blocking the nerve impulses to those muscles. As the treated muscles relax, wrinkles and lines created by their contraction gradually fade and sometimes even disappear completely.

- Botox \$13 per unit
- Dysport \$13 per unit
- Xeomin \$13 per unit
- Botox Hyperhidrosis \$1,200

DERMAL FILLERS

Dermal fillers help reverse the signs of aging. As we age, our face loses bone, fat, and collagen under the skin, especially in fit individuals. A young face is defined by facial fullness, not simply tightness of skin. Natural dermal fillers can restore the lost volume, resulting in a more youthful look.

- Juvederm \$525 per vial
- Volbella \$425 per vial
- Voluma \$800 per vial
- Belotero \$525 per vial
- Radiesse \$675 per vial
- Sculptra \$800 per vial
- Restylane \$525 per vial
- Vollure \$730 per vial
- Lyft \$600 per vial
- Defyne & Refyne \$650 per vial

KYBELLA

Kybella is a non-surgical injectable for reducing moderate to severe fat below the chin, the area commonly known as a "double chin." The injection contains a naturally occurring substance in the body, deoxycholic acid, which helps the body absorb fat cells. When properly injected, Kybella destroys fat cells. The FDA approved Kybella as a treatment for adults with submental fat in 2015. The treatment is called Belkyra in Canada, Australia, and U.K.

- Kybella \$1375 for 2 vials

VBEAM/PULSED-DYE LASER

The Vbeam Perfecta system uses a pulsed-dye laser to treat birthmarks, rosacea, red & brown sun spots, scars, stretch marks, warts & more.

- Vbeam 0-10 pulses \$150
- Vbeam 10-50 pulses \$225
- Vbeam 50-200 pulses \$375
- Full face x 3 \$1,000

INTENSE PULSED LIGHT

IPL photorejuvenation primarily addresses the skin's tone by reducing the brown pigmentation and redness that create a dull, aged complexion. IPL is a no downtime treatment and any area of the body can be treated to even out skin tone by delivering pulses of light to the target areas, such as brown pigment and red cells in the skin. This light is converted to heat energy, which fades those specific targets resulting in a more even, brighter complexion with less discoloration. IPL Photorejuvenation has been performed for over 20 years, and there are many studies in the medical literature demonstrating true, antiaging and acne benefits. We use both the Elos Technology and the Palomar Icon devices and can treat upto skin type 4 with IPL.

- Acne IPL \$200
- Acne IPL x 3 \$500
- Photofacial/photochest or photoarms \$375 per treatment
- Photofacial/photochest or photoarms x 3 \$1,000
- Photofacial and chest \$500
- Photofacial and chest x 3 \$1,250
- Photo-spot treatment \$50 per spot

CHEMICAL PEELS

A chemical peel uses a solution to improve the texture and tone of your skin by removing the damaged outer layers. Although chemical peels are used mostly on the face, they can also be used to improve the skin on your neck and hands. Sun exposure, acne, or simply getting older can leave your skin tone uneven, wrinkled, spotted, or scarred.

A chemical peel is one of the most cost-effective ways to improve the appearance of your skin. The potential results depend on the type of ingredients and technique used. At the UAB Cosmetic Dermatology and Laser Clinic, we can pick the best ingredients for your particular skin type and condition.

- Medium-depth peel \$500
- Superficial peels \$125

- Dermaplaning add-on prepeel \$75
- Hydrafacial \$150
- VI Precision Plus \$300
- VI Purify Precision Plus \$300
- Hydrafacial Elite/ZO Brightalive \$200
- Hydrafacial Anti-aging \$250
- Hydrafacial x 4 \$400
- Hydrafacial Elite x 4 \$550
- Hydrafacial Bright Alive \$300
- Perk add-on lips \$30
- Perk add-on eyes \$40
- Perk add-on full face \$50
- Vitalize \$155
- Rejuvenize \$200

COSMETIC LESION REMOVAL

We can improve the appearance of the spots by shave removal, cryotherapy, cautery, epilation, or a combination of these treatments. Insurance does not cover the removal of harmless spots on the skin for cosmetic purposes such as skin tags, common moles, seborrheic keratoses, and sebaceous hyperplasia.

- 1 Lesion \$50
- 2 - 15 Lesions \$150
- 15 or more \$200
- Acne Surgery \$200

COOLSCULPTING

The CoolSculpting fat-freezing procedure is the only FDA-cleared, non-surgical fat-reduction treatment that uses controlled cooling to eliminate stubborn fat that resists all efforts through diet and exercise. The results are proven, noticeable, and lasting. You can achieve even better results when this is combined with our skin-tightening devices.

- Cool mini under chin \$1,000
- Cool 1 Cycle \$750
- Cool 2 Cycles \$1,500
- Cool 3 Cycles \$2,100
- Cool 4 Cycles \$2,700
- Cool 5 Cycles \$3,200
- Cool 6 Cycles \$3,800
- Cool 7 Cycles \$4,200
- Cool 8 Cycles \$4,500
- Cool 9 Cycles \$4,800
- Cool 10 Cycles \$5,000
- Cool 11 Cycles \$5,500
- Cool 12 Cycles \$6,000
- Cool 13 Cycles \$6,500
- Cool 14 Cycles \$7,000
- Cool 15 Cycles \$7,500

LASER HAIR REDUCTION

The laser hair removal permanently reduces hair by targeting the pigmentation in the hair follicle while leaving the surrounding tissues unaffected. Most patients can expect a significant reduction of 80% or better with the remaining hair becoming finer and softer after multiple treatments. The number of treatments depends on skin and hair type. You will want to arrive with the area freshly shaven and the treatment time can be anywhere from 10 minutes to 1 hour or more depending on the size of the area. We have Elos Technology and the Palomar Icon devices and can treat all skin types comfortably and safely.

- Hair - lip \$100
- Hair - lip x 3 \$250
- Hair - legs \$750
- Hair - legs x 3 \$2,000
- MaxRs Hair - brazilian \$400
- Hair - brazilian x 3 \$1,000
- Hair - axilla or bikini \$250
- Hair - axilla or bikini x 3 \$600
- Lip & chin \$250
- Lip & chin x 3 \$600
- Back \$500
- Back x 3 \$1,250
- Chin \$200
- Chin x 3 \$550

FRAXEL RESTORE/DUAL - RESURFACING

The Fraxel Dual laser treats uneven (or blotchy) pigmentation commonly associated with sun spots, melasma, and even precancerous conditions, such as actinic keratosis, which manifests itself in small, rough patches of skin. The Fraxel Dual has the unique benefit of two separate treatment modes that target different skin layers by using different laser frequencies. The 1550 frequency penetrates deep into the dermal layers of the skin to specifically target aging skin concerns such as deep pigment, wrinkles, and acne scarring. The 1927 laser frequency targets the epidermal skin layers to improve skin tone, texture, and smoothness.
