Selected lessons learned thus far: "It’s only a matter of time: Mechanistic insights into diabetes and 
chronic 
vascular disease"
EDUCATIONAL OBJECTIVES

This meeting is designed to provide scientists and clinicians with the most current information concerning recent advances in clinical care and applied research in the field of Ischemic Heart Disease.

After attending this symposium, participants should be able to:

1. Identify new therapies and interventions in the treatment of ischemic heart disease
2. Discuss risk factors and prevention guidelines for ischemic heart disease
3. Highlight recent advances in the diagnosis, treatment, and management of ischemic heart disease

ABSTRACT SUBMISSION

Deadline for Abstracts:

August 1, 2016 – for consideration for the Featheringill Young Investigator Award

September 8, 2016 – for acceptance as a poster presentation only

Submit abstracts online and find additional guidelines for submission at uab.edu/medicine/cardiovascularcenter

Eligibility: Graduate students, post-doctoral fellows, clinical fellows, and residents

Featheringill Young Investigator Award: The primary authors of the top 3 abstract submissions will be selected to present a 15-minute session at the symposium on October 1, 2016. The top presentation will be awarded the Featheringill Young Investigator Award. Authors selected to present at the symposium will be notified by September 1, 2016.

ACCREDITATION

The University of Alabama School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The University of Alabama School of Medicine designates this educational activity for a maximum of 11 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

UAB is an Equal Opportunity/Affirmative Action Institution.
