

**University of Alabama at Birmingham (UAB) Hospital
Post-Graduate Year 2 (PGY2) Solid Organ Transplant Residency Program**

Purpose Statement

The purpose of the PGY2 Solid Organ Transplant Residency Program at UAB Hospital is to prepare graduates to be clinical pharmacy specialists in the care of acute- and ambulatory-based adult abdominal and cardiothoracic transplantation patients through experiences offered in a wide variety of practice environments.

Outcomes required by the ASHP Accreditation Standard for PGY2 Solid Organ Transplant Residency Programs

- Outcome R1:* Serve as an authoritative resource on the optimal use of medications in recipients of a solid organ transplant.
- Outcome R2:* Optimize the outcomes of transplant patients by promoting and/or providing evidence-based medication therapy as an integral member of an interdisciplinary team in acute and ambulatory care settings.
- Outcome R3:* Manage and improve the medication-use process in transplant patient care areas.
- Outcome R4:* Demonstrate leadership and practice management skills.
- Outcome R5:* Demonstrate excellence in the provision of training or educational activities about transplant-related medications for health care professionals and health care professionals in training.
- Outcome R6:* Conduct transplant research.
