

Program: Postgraduate Year 1 (PGY1) Pharmacy Residency

Residency Program Director: **Tomie Ann Boackle, PharmD**

Deadline: **January 1**

PGY1 Pharmacy Residency: The PGY1 Pharmacy Residency Program at UAB Hospital is accredited by the American Society of Health-System Pharmacists (ASHP). It builds on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training. This program provides a structured learning environment in which residents gain experience in all aspects of pharmacy practice, while allowing flexibility so that residents may pursue areas of interest.

- Plus many more

The applicant must possess a PharmD degree from an ACPE-accredited college or school of pharmacy and be eligible for licensure in Alabama. All applications must be submitted through PhORCAS (Pharmacy Online Residency Centralized Application System) **by January 1**. The required components of the application include a letter of intent, three references, a photograph of the applicant, curriculum vitae, and a pharmacy school transcript. For the letter of intent, the applicant should state his or her future career goals and explain how the UAB Pharmacy Residency Program can help with the achievement of these goals. For references, it is encouraged that at least two of these be from clinical rotation preceptors. The reference forms in PhORCAS must be completed by all three references. An on-site interview is required.
