Color Palette and Font

CORE COLOR PALETTE

A single color communicates meaning almost instantaneously, and color is a key factor in brand recognition. Color defines us, unifies us, rallies us. The official website colors for the UAB Medicine website are teal and a darker teal, with the burnt orange color representing urgency or call to action.

Icon Styles and Resources

We often use icons to represent a larger idea in a simple and stylized way. For web usage, we are equipped with a large icon font repository that is enabled on the website. These icons are also easy to download and use in print or social communications.

FONT AWESOME WEBSITE:

Once you find an icon, you can copy the icons code or download it.

EXAMPLE: Hospital: “fa-hospital”

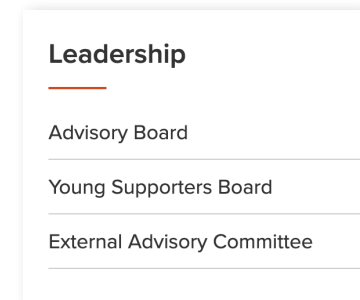

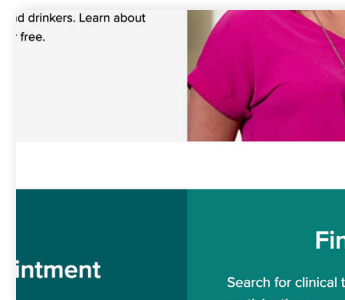

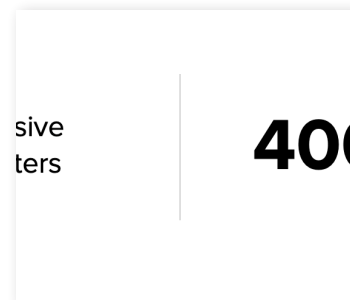

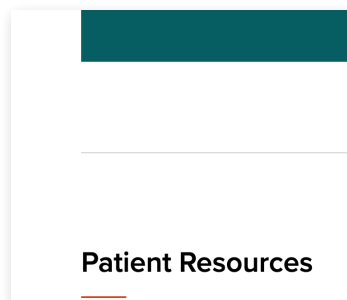

Icons can be reversed out in white when used on a solid background:

Shapes and Styles

The UAB Medicine website utilizes clean lines, white space, and squared edges. Most of the web pages utilize full width layouts in combination with multi column layouts. The blocks used to layout content are often seen with solid backgrounds or all white background with ample margins. Spacing between content is often delineated with vertical pipes or horizontal rules.

Photography

Photographs are an important part of building the brand. They should be selected carefully for quality and consistency in style and appropriateness for audience.

Quality of image and lighting conditions are important to unifying a look. We prefer photographs taken on campus if possible. Stock images may be used if needed. Always try to use bright, natural light, and shoot in uncluttered spaces.

Please use photos that represent the following:

- Advanced Medicine
- Quality Care
- Best Doctors
- Modern Facilities
- Passionate Research
- Compassionate Care

The following photographs are representative of the brand attributes of UAB Medicine. Some official photos (building, headshots, etc.) are available upon request. A collection of banner image collages are pre-loaded into WordPress for use.
