Park in The Kirklin Clinic of UAB Hospital parking deck. Escort personnel are located there and have wheelchairs to help get you to your appointment. This deck is two blocks from the clinic, but you can access it by following the second-floor skybridge. High-top van access is restricted to the circular driveway in front of The Kirklin Clinic of UAB Hospital, so patients arriving in high-top vans and requiring wheelchair assistance should be dropped off at the front door of The Kirklin Clinic before the driver parks the vehicle. Valet parking is available in the circular driveway at the The Kirklin Clinic front entrance.
